WHO WE ARE

Engineering services under one roof

DIEYNEM Co. Limited is a Tanzanian Class One electrical, ICT, fire, HVAC, solar and rural-electrification contractor, trusted on national infrastructure by government ministries, parastatals, universities and leading international main contractors. Incorporated in 2011 and registered with the Contractors Registration Board as a **Specialist Contractor, Class One**, we deliver complex, multi-disciplinary works to the standard that procurement and due-diligence demand.

WHAT WE DO

Six core disciplines

Electrical & Power Distribution

LV/MV/HV installation, 33kV switchgear, distribution boards, metering, testing & commissioning.

ICT & Structured Cabling

Data networks, structured cabling and ELV integration for institutional and commercial buildings.

Fire Detection & Alarm

Fire detection, alarm and heat-detector systems for safe, code-compliant buildings.

HVAC & Ventilation

Air conditioning and mechanical ventilation — CRB Specialist Class One in HVAC.

Solar Street Lighting

Supply, concrete-base construction and installation of solar street lights at scale.

Rural Electrification

MV/LV power lines, transformers and customer connections — prime & joint-venture delivery.

WHY DIEYNEM

- ✓ **Class One** CRB registration & Electrical Contractors Class I licence
- ✓ **Full statutory compliance** — due-diligence ready
- ✓ **International** delivery — prime contractor in Uganda
- ✓ **Independently certified** completions

OUR WORK

Flagship projects

INSTITUTIONAL

Pan African Postal Union – 19-Floor Tower, Arusha

Full power chain: 33kV switchgear, 2×1250kVA transformers, 3600A main panel, 3×800kVA generators, 3×160kVA UPS, AHUs and civil-aviation warning lights.

GOVERNMENT

Tanzania Bureau of Standards Laboratories

Electrical and structured-cabling works for the TBS test-house laboratories at Ubungu, Dar es Salaam — delivered as joint-venture partner.

AVIATION

Tabora, Msalato & Sumbawanga Airports

Electrical, ICT, fire-alarm and HVAC works for three national airports as Electrical & ELV sub-contractor to Beijing Construction Engineering Group.

INFRASTRUCTURE

Rural Electrification – Tanzania & Uganda

Hundreds of kilometres of 33kV line, 140+ transformers and thousands of connections for the Rural Energy Agency — including prime delivery in Uganda.
